

FOLK DANCE CATALOG

FESTIVAL RECORDS

2769 W. Pico Blvd., Los Angeles, CA 90006

PHONE: (213) 737-3500

Greetings fellow folk dancers! This is our first catalog of folk dance records for many, many years, and it is far from a complete listing of what we have available. We not only have records produced by us, but also those of nearly all other folk dance record companies such as Folkraft, Folk Dancer, Worldtone and the many small companies that produce records. We also carry teacher-produced records and LPs of the many fine orchestras (such as AMAN) which have come into existence in recent years. We import records regularly from Europe and other areas and, of course, we carry the latest fad, novelty and "pop" records as well as some square and round dance records.

We hope to add pages of these to this catalog, but in the meantime feel free to order anything in the dance field from us. We probably have the largest selection anywhere, including many out-of-print records (including a basement full of old 78s for dances dating back to the '40s). Our business was started then, and we helped pioneer the general folk dance movement and the Balkan dance field on the West Coast.

You can order folk dance books of all kinds from us; we have stacks and stacks of folk dance syllabi of dance descriptions, such as the Folk Dance Federation Volumes, San Diego, Stockton and other folk dance camp syllabi for the past 30 years, Kolo Festival syllabi dating back to the mid-fifties, Let's Dance magazines, and many other resource materials. We do not, however, supply individual dance descriptions unless they come with the record.

Ordering Information

WHEN ORDERING, please keep these points in mind:

- it would help complete the order if you give us a few alternate numbers or dance titles to be used if we are out of the particular record being ordered--some good "second choices."
- small orders are costly and do not benefit either of us in the long run. Since all our orders are serviced individually and we have normal business expenses, any order nowadays under \$10.00 is not practical. However, if you need it badly, we will ship it, but must add an extra \$1.00 service charge. We hope you understand.
- shipping is extra: please add \$2.00 per order regardless of order size...thus you save by submitting a larger order.
- California residents please add 6% sales tax.
- please remit payment with the order using which ever method is convenient for you. If you prefer COD, we use the United Parcel Service (UPS) which gives good service; be sure we have a street address (not P.O. Box) for UPS delivery.
- We accept Visa and Mastercharge. If it is easier for you, simply write your account number together with all other information (any other numbers and the expiration date, etc.) from your card on the order.
- Phone orders are also accepted on the same Visa and Mastercharge basis. Please call us anytime between 10:00 AM and 6:00 PM Monday thru Saturday.
- We will endeavor to give you the best possible service including same day shipment, having just re-organized our shipping department.
- to our customers in Canada, Europe, Japan and Worldwide: we are indeed pleased to be of service to you. Since there is no COD possible, please remit with order, allowing for the extra cost of postage to your country. If you prefer, you may send your order to us first and we will then send you our pro-forma invoice for payment prior to shipping your order.
- we invite purchase orders from schools, libraries and religious and other institutions.
- to make your ordering from this catalog a little easier, you may simply order by record number. For other items please list Dance Title or Record Label & Number (or both!).
- prices in this catalog(which as in most catalogs are subject to change without notice) are, as of mid-1979, as follows:
 - 2.75 for 45 RPM records
 - 4.00 for 7" EP records
 - 5.50 for 10" LP records
 - 7.98 for 12" LP records
